This information is important in three aspects –

- firstly, it enables those who have received accreditation to get their certificates in a short period of time, and be registered with the Australian Sports Commission. From our research, timely recognition is very important to volunteers;
- secondly, the provision of these statistics are utilised in the key performance monitoring of the success of the program;
- thirdly, the questionnaires provide valuable feedback on the program as a whole, and the lecturers delivery – for our own quality assurance assessments.
